FREQUENTLY ASKED QUESTIONS

Billing and Subscriptions FAQ

Document number	LHS-FAQ-BIL-003
Revision	6.0
Effective date	March 1, 2026
Document owner	Customer Care Knowledge Team
Audience	Customer Care agents; approved answers may be shared with customers
Classification	Internal - do not distribute outside Lumora

Purpose. Approved answers to common questions about payments, invoices, price matching and the Lumora Plus subscription. Answers can be read or pasted to customers as written.

1. Payments and Invoices

Q1. Which payment methods does Lumora accept?

The online store accepts major credit and debit cards, Lumora gift cards and store credit. Phone orders accept cards only. Lumora does not accept cash on delivery, checks or bank transfers for consumer orders. Business accounts can be invoiced with net-30 payment terms after a credit check.

Q2. When is my card charged?

Cards are authorized when the order is placed and charged when the order ships. If an order ships in several packages, each package is charged separately when it ships. Authorizations for items that are cancelled before shipping are released by the card issuer, usually within 5 business days.

Q3. Where can I find my invoice?

Invoices for orders and subscriptions are available in the Lumora Home app under Account > Billing > Invoices, and on the website under Order History. Each invoice can be downloaded as a PDF. Agents can resend an invoice from OMS, but cannot change the billing name or address on an invoice that has already been issued.

Q4. Why was I charged sales tax?

Sales tax is calculated from the shipping address, not the billing address, and includes state and local taxes where Lumora is required to collect them. Tax-exempt organizations must upload their exemption certificate before ordering; tax already charged is not refunded retroactively.

2. Price Match and Promotions

Q5. Does Lumora price match?

Yes. If the customer finds a lower advertised price for the same new product from Lumora or an authorized retailer within 14 days of their purchase, Lumora refunds the difference. The lower price must be publicly available, in stock and from a seller located in the United States. Price matching is limited to one adjustment per order and does not apply to marketplace sellers, open-box or refurbished offers, bundles, or prices that require a membership.

Q6. Can I combine promotion codes?

Only one promotion code can be used per order. Promotion codes cannot be applied to gift card purchases or to Lumora Plus subscriptions, and they cannot be added after the order has been placed.

Q6a. Is there a referral program?

Yes. Customers can share a referral link from Account > Refer a Friend. The friend receives $15 off a first order of $100 or more, and the referring customer receives $15 in store credit once the friend's order has passed the 30-day return window. Each customer can earn referral credit for up to 10 referrals per calendar year.

Q6b. Does Lumora offer discounts for military, students or seniors?

Lumora does not offer group discounts at this time. Agents should not create manual discounts for these requests; instead, mention any current public promotion and the price match policy.

3. Lumora Plus Subscription

Q7. What is Lumora Plus and how much does it cost?

Lumora Plus is an optional subscription that adds extended history, advanced energy reports and premium support benefits. It costs $4.99 per month or $49.00 per year. One subscription covers all devices in one home.

Feature	Free	Lumora Plus
Remote control and schedules	Included	Included
Temperature and runtime history	90 days	3 years
Energy reports	Monthly summary	Monthly report with room-by-room breakdown and savings tips
Advance replacement under warranty	T3 and H1 only	All devices
Support	Standard queue	Priority phone queue
Household members	Up to 8	Up to 8

Q8. Is there a free trial?

Customers who activate a new Thermostat T3 receive a 30-day free trial of Lumora Plus. The trial starts automatically when the T3 is added to the app and converts to the monthly plan at the end of the trial unless the customer cancels. Only one trial is available per home, even if several thermostats are installed. T2 purchases do not include a trial.

Q9. What happens if a subscription payment fails?

If a renewal payment fails, Lumora retries the card three times over 7 days and emails the customer after each attempt. If all retries fail, the subscription is paused and the home moves to the free plan. History beyond the free limit is kept for 60 days after the pause; if the customer updates the payment method within those 60 days, Lumora Plus resumes with the full history.

Q10. How do I cancel, and will I get a refund?

Customers can cancel at any time in the app under Account > Billing > Lumora Plus, or by asking an agent. Monthly plans are not refunded; the service continues until the end of the current month. Annual plans cancelled within 30 days of the start or renewal date receive a full refund. Annual plans cancelled after 30 days are not refunded, and the service continues until the end of the paid year.

Q11. Can I switch between monthly and annual billing?

Yes. Switching from monthly to annual takes effect immediately, and the unused part of the current month is credited. Switching from annual to monthly takes effect at the next renewal date.

4. Gift Cards and Store Credit

Q12. Do gift cards or store credit expire?

Lumora gift cards do not expire and have no fees. Store credit issued for refunds or goodwill credits expires 24 months after it is issued. Neither can be exchanged for cash, except where required by state law.

Q13. Can store credit pay for Lumora Plus?

Store credit and gift cards can be used for products and the first payment of an annual Lumora Plus plan. Monthly plans and renewals must be paid by card.

5. Business Accounts

Q13a. How do business accounts work?

Businesses such as installers and property managers can apply for a business account on the Lumora website. Approval takes up to 3 business days. Business accounts get volume pricing on orders of 10 or more units of the same product, free standard shipping, and optional invoicing with net-30 terms after a credit check. Invoices not paid within 30 days put new orders on hold.

Units of the same product per order	Discount from list price
10-24	8%
25-99	12%
100 or more	Quote from the business sales team

6. Billing Disputes

Q14. I see a charge I do not recognize.

Ask the customer for the date and amount of the charge and search OMS by the last four digits of the card. Charges usually match a shipped package, a Lumora Plus renewal or a missed installation appointment fee. If no matching order is found, advise the customer to contact their card issuer and record the contact in the ticket.

Q15. The customer has filed a chargeback.

Do not issue a refund or replacement while a chargeback is open. Route the ticket to the Finance Disputes queue, which responds to the card issuer within the issuer's deadline. Lumora Plus is suspended while a chargeback for a subscription payment is open.
