FREQUENTLY ASKED QUESTIONS

Shipping and Delivery FAQ

Document number	LHS-FAQ-SHP-002
Revision	4.1
Effective date	February 2, 2026
Document owner	Customer Care Knowledge Team
Audience	Customer Care agents; approved answers may be shared with customers
Classification	Internal - do not distribute outside Lumora

Purpose. Approved answers to questions about shipping options, costs, delivery times, tracking and lost or damaged packages for orders placed on the Lumora online store or by phone.

1. Shipping Options and Costs

Q1. What shipping options are available?

Method	Delivery time after shipping	Cost
Standard	3-5 business days	$6.95; free on orders over $75
Expedited	2 business days	$14.95
Overnight	Next business day	$29.95

Table 1-1. Shipping methods for the contiguous United States.

Order totals for the free shipping threshold are calculated after discounts and before tax. Orders to Alaska and Hawaii ship by expedited service only, at the expedited rate, and take 3-6 business days.

Q2. When will my order ship?

Orders placed before 2:00 PM Eastern on a business day ship the same day. Orders placed later, or on weekends and holidays, ship the next business day. Overnight orders must be placed before 1:00 PM Eastern to ship the same day. Orders that include professional installation ship so that the device arrives at least 2 business days before the appointment.

Q3. Where does Lumora ship?

Lumora ships to all 50 US states and Washington, D.C. Lumora does not ship internationally or to freight forwarders. Standard shipping can be delivered to PO boxes and military APO/FPO addresses; expedited and overnight shipping cannot.

Q4. Is a signature required?

A signature is required for orders with a total over $500. Customers cannot waive the signature requirement. If nobody is available, the carrier makes two more attempts and then holds the package at a local pickup location for 5 business days before returning it to Lumora.

2. Tracking and Changes

Q5. How do I track my order?

A shipping confirmation email with the tracking number is sent when each package leaves the warehouse. Tracking information can take up to 24 hours to appear in the carrier system. Orders can also be tracked in the app under Account > Orders.

Q6. Can I change the address or cancel my order?

The shipping address can be changed and the order can be cancelled within 1 hour of placing it, in Order History or by contacting Customer Care. After 1 hour the order is released to the warehouse and cannot be changed; the customer can refuse the delivery or return the items under the Returns and Refunds SOP. Agents cannot redirect packages that are already in transit.

Q6a. Can I pick up my order?

No. Lumora does not have retail stores or pickup locations. Customers who need a product the same day can check authorized retailers listed on the Lumora website; those purchases are covered by the retailer's return policy.

Q6b. Can I ship to a different address than my billing address?

Yes. Orders over $1,000 shipped to an address different from the billing address may be held for up to 1 business day for a fraud review. The customer is contacted by email if more information is needed.

3. Problems With Deliveries

Q7. My tracking has not updated for several days. What should I do?

If tracking shows no movement for 5 business days, the agent opens a carrier trace in OMS. Lumora ships a free replacement by expedited shipping if the trace confirms the package is lost, or if the trace has no result after 3 more business days. The customer does not need to wait for the carrier to finish its investigation.

Q8. Tracking says delivered, but I do not have the package.

Ask the customer to check with neighbors and around the property, and to wait until the end of the next business day because carriers sometimes mark packages as delivered early. Missing deliveries must be reported within 7 days of the delivery scan. For the first report on an account, Lumora ships a replacement at no cost. For any further report within 12 months, the customer must file a police report before a replacement is approved by a Team Lead.

Q9. My package arrived damaged.

Customers should take photos of the box and the product and contact Customer Care within 7 days of delivery. The agent creates a return with reason code DT-04 and ships a replacement as soon as the photos are received; the damaged item must be returned with the prepaid label.

> **Safety:** If the device itself shows signs of damage such as a cracked display or exposed electronics, tell the customer not to install or power it.

Q10. Part of my order is missing.

Large orders may ship in more than one package; check the shipping confirmation emails first. If an item is missing from a package that has arrived, the agent checks the package weight recorded by the warehouse in OMS. If the recorded weight matches a complete shipment, the case is escalated to the warehouse for review within 2 business days before a replacement is sent.

4. Holidays and Installation Appointments

Q11. What are the holiday shipping cutoffs?

Lumora publishes the exact cutoff dates on the website each November. As a rule, standard orders must be placed by December 15 and expedited orders by December 20 to arrive before December 25. Overnight orders placed by 1:00 PM Eastern on December 23 arrive on December 24. The warehouse is closed on Thanksgiving Day, December 25 and January 1.

Q12. How are installation appointments scheduled?

When an order includes professional installation, the customer receives a scheduling link by email after the order ships. Appointments are available Monday to Saturday in 3-hour arrival windows. Customers can reschedule without charge up to 24 hours before the appointment; a missed appointment without notice incurs a $49 fee deducted from the installation refund.

Q13. What packaging does Lumora use?

Orders ship in recyclable cardboard with paper padding. Lumora does not use plastic air pillows or foam. Several items in one order may be packed together in one box to reduce waste, even when they appear as separate lines on the invoice.

5. Business and Bulk Orders

- Orders of 25 or more units ship by freight and require a delivery appointment.
- Business accounts receive standard shipping free on all orders.
- Freight deliveries must be inspected on arrival and damage noted on the delivery receipt; otherwise damage claims cannot be accepted.

6. Return Shipping

Q14. How do I send a return back?

Every approved return or warranty RMA comes with a prepaid return label sent by email. The customer prints the label, attaches it to the box and drops the package at any location of the carrier named on the label, or schedules a free pickup from the carrier website. Customers without a printer can show the QR code from the email at a staffed carrier location.

Q15. Do I need the original box?

No. Any sturdy box works as long as the device is padded and cannot move. Customers should not tape the label over old barcodes; old labels must be removed or fully covered.

Q16. How long does a return take to reach Lumora?

Return packages usually take 3-7 business days to reach the Returns Processing Center. The customer can follow the tracking link in the RMA email. Refunds and replacements start after the RPC has received and inspected the package, as described in the Returns and Refunds SOP.
